# PRINCIPLE, POLICY AND PRACTICE!

OR

## DEMOCRACY vs. PASSIVEISM AND SECTIONALISM!

*Or Truth as Opposed to Sacrificing Established National Principles to Sectional Departing Expediency!*

I SHALL take the liberty (as liberty is the order of the day) to offer a few facts (and facts are stubborn things) for the candid consideration of the honest, reading, thinking minds of this land of promise, thus stationed with a model of stately or patent right self-government, or this world we live in, yielding in season and out of season only disobedience, sin and death. Which facts you will please read caretully, prayerfully, and judge according to the honest convictions or dictates of conscience. I shall attempt to pave the way to our straight and narrow path of science, civilization and Christianity, with a trinitorial, eventful, chain of proverbial Axioms.

*First.* In establishing the fact that the pen of *peace* is more mighty than the sword of war! Peace is our Divine, national, Creator, moral union Savior, and spiritual or constitutional, liberty *Redeemer!* Whilst the sword of war *divides* the national house against itself; nation against nation, and Cain-striking man against his Abel-virtuous

brother man! The Almighty, moral-pointed pen of spiritual peace, is the mighty living, reformer, law-giver, and peace maker of the world! Whilst the sword of war orders a retreating, marching, or a departing back again into the beggarly elements of war-stained marching, barbarous military despotism, or the savage *tribe-you-nail* gauntlet of destruction!

*Second Axiom.* Truth is mighty; yea, more, it is almighty; yes, verily, the most or the highest, supreme, Divine Almighty power, and will prevail with *him, them* or the *party* only which holds out (or on to truth) faithfully to the end, for such only can claim the Divine promise of reward, under the general law!

*Third Axiom.* Divine, orderly principle; moral, attractive, sun, soul and material saving, insurance *policy*, and spiritual, liberty, redeeming practice, giving motion to matter, emotion of mind, and promotion of virtue, should be our rule of action; of peaceful, loving, virtuous action; of sublime, God-like action, creating, governing and regulating all motion, mind and matter. Hence, I shall typically, figuratively or prophetically head, be-head or em-body, as the reader may elect, judge wisely, or condemn, this brief, hasty essay on man, or the laws and governments of man, as the times demand a saving union of the sacred principles, policies and practices of *Democracy, vs. sectionalism, departing passiveism*, or all *black Republican* shades and dark shadows of death-dealing *opposition!* Or in other words, white Republicanism against red Republicanism, and black Repub-lic-can-ism; or in another free, home-spun dress, the national union and constitutional form of white Republican, self-government, as created by our spiritual and political, stately fathers, formed on the trinitorial rock of ages, the family, the church, and the State, whose immortal frame-work is the temple of domestic, political and religious liberty; where all nations, tribes or kindred

tongues, can worship. As against a foreign, supported, consolidated, church and stately monarchy, or the baser, supported, sectional, military despotism, feeding on war, civil war, or civil, uncivil chronic war of capital over labor, changing the elementary basis of a pure, native American form of white Republican, self-government, founded on the political, moral and statesman-like justice, judgment and intelligence of the people, to the extreme basest, elementary, black Republican form of self-government, founded on the foreign, ignorant, servile African race, holding the balance of power built on, supported with, and fed by the violent prejudices and passions of slavish ignorance; and this anti-Republican system of government, perpetuated through the vile means of force, fraud and military power over civil law, building up in twelve years' time the greatest dead or departing, masterly, capital, bonded land, labor and monopolizing aristocracy of the age; thereby establishing the worst form of domestic, moral and political slavery the world ever knew. and this, too, on their own effective, sectional, destroying ruins of the best of an equalizing, distributive, life, liberty and property, protective system of Republican self-government this world ever saw; done, too, in the sectional *name* of higher law-liberty, anti-slavery, philanthropy and may-jest-stick (like Cain over Abel), double cloven-footed, civil war power, as the base means or sectional agent, in this national union and constitutional or civil law destruction, and all this by a party claiming all the intelligence, morality and decency in the land!

Then the greatest problem (of this extreme age) in which domestic, moral and political extremes are meeting as they never met before, and are destroying each other as extremes never destroyed each other before, and are as yet without the hope, plan or worldly means of a peace-creating, union-saving and liberty-redeeming mediator—is to solve, re-solve or re-instate this only one true national form

of white Republican self-government. Who shall become our political Savior in this second advent in the third resurrection day of this spiritual government of our Democratic fathers? Who shall be the first to proclaim this millennium day of peace on earth and good-will to men? For we must have a domestic, moral and political millennium before we have the Divine, moral and spiritual second advent, millennial day or seventh day savior. But where are our moral philosophers, patriotic sages, or this wise statesman of the day? Gone, methinks I hear Horatio say, into land, labor and capital monopolies! departed into destroying official, sectionalism; or buried in bonded, cuss-Tom-Murphy house, unbounded, general con-tammy-nating political corruption!

Is it not time that all honest men (meaning more especially Democrats) should stop and retrospectively look back at the former state of pure Democratic peace, union and prosperity, compared with the present state of black Republican desperation, creating only sectional discord, effectively establishing military despotism, and finally resulting in political slavery, and inquire why has the Democratic scepter departed out of Judah, Israel or the promised land of Canaan? This I shall answer in due time, place and quantity sufficient for the day of political judgment, which is near at hand, when we must or should answer for all the sins done in this body, politically and constitutionally corporate; or under the Granted anti-habeas-corpus, ku-klux executioner, by the one-man power establishing general military despotism!

The truly wise man will devotedly but respectfully inquire into this life or death, government or anarchy, liberty or slavery, first creating cause, and reasonably trace it to its mediatorial, union saving or destroying effect, and be satisfied with nothing more, or surely with nothing less than a full understanding of its final saving or destroying results!

My third edition of the Bible (as I must have my trinity

in all things material, human or divine), then the book of books, now the Divine revelation of these domestic, moral and civil laws, and also the physical, moral and national constitutional laws, through our spiritual moral and political law-givers, and the general plan of domestic, and political salvation says, typically, figuratively and prophetically: Come, let us reason together; now that time prophetically specified in the typical course of figurative, trinitorial events, has evidently arrived. And with the advent of my book, entitled "A Revelation of the Trinitorial Equations of Nature, creating, governing and regulating all motion, mind and matter," commences this age of reason, judgment and better understanding of these domestic, spiritual and political laws; also an advancement of all the arts, sciences and inventions of mankind, and likewise, what is of infinitely more importance to all, a reformation of the family, the church and the State, the trinitorial co-ordination, primary branches of all governments founded on this terrestrial rock of ages, commencing the Reformation in our own first successful, national experiment of self-government, and then transforming, conforming and reforming crowned kingdoms and empires into stately, and national, united republics like our own, under Democratic reconstruction, first over an united stately Europe, or united states of Asia, and even a you-knight-tied states of down-trodden Africa and her cloven-footed isles of the ocean!

And but for the damnable heresy, in our land of jealousy, envy and hypocrisy, the besetting sins of man, the devil personified or embodied in human flesh, as the destroying angel of death eating up our substance, destroying our liberties, and enslaving honest poverty, favoring, protecting, and exalting the rich, but financially enslaving, humiliating, and bowing down the poor. Hence, my humiliating, financial poor apology for the non-appearance of my book, which I promised to have before the people last

month (May), and might, would and should have had it ready over one year ago but for the want of a little financial backing to put it on its feet, so that it can run its course, and travel to all nations of the earth, establishing in each its henceforth crown of glory, which is Divine peace on earth and good-will to men. But this book still lies in the beggar's press instead of in the printer's press; but the press of typical, spiritual and political events demand that this great reformation must commence with this sectional grant-tied, un-stable government, as the eventful, pressing one thing needful. For without good municipal, stately and national, political governments, there is no peaceful, pure engagement of domestic, political and religious liberty; no equalizing protection of life, liberty and property, and no assurance of the general blessings resulting from the guaranteed freedom of speech, freedom of the press, and freedom of conscience. Then I shall lay down my broad universal, trinitorial platform, founded on the everlasting rock of ages, and whose unlimited frame exists throughout all the trinitorial equations of nature. Firstly in the higher positive, first cause, legitimate or illegitimate father, or creating extreme, a lower negative legitimate, illegitimate or passive may-jest-stick, persecuting, enslaving or destroying extreme, with a mediatorial (sun) son—soul and material saving mediator between these positive, creating and negative destroying extremes; and on this platform is founded the divine, moral and spiritual plan of domestic, spiritual and political, or material salvation, creating, governing and regulating all motion, mind and matter!

Then in this first successful, national experiment, our democratic fathers were the positive first cause, legitimate fathers, or national, union and constitutional creators of this self-government. And all negative, bully, tory, sectional, hooking opposition are, were, and always will be, (if endorsed), the ill-lee-get-i-mate destroyer of this self-same

domestic, moral and political self-governments, eye-eeen under the first man Adam, in the devilish, disturbing, alien and sedition laws, in partaking of the forbidden fruit, or this apple of sectional discord, from off the proscribed tree or life, liberty or knowledge, thus causing the fall of man, the fall of parties, and the downfall of nations. And also by the second man Adam, who sowed the first official, sectional executive seeds of this sectional anti-slavery apple of discord, and thus produced the first cause or first fruits of disobedience to the national laws, thereby bringing effectively the first sin of disunion into this hitherto peaceful, political Garden of Eden, resulting in the most damnable, double cloven-footed, civil war, and spiritual, political, constitutional death, or a departure into the worst form of domestic, moral and political slavery the world ever knew; whilst the sectional-departing, third man Adam, is knocking at the sectional door of this political, corrupted Garden of Eden, wanting to become the executive judge of politically departed, quick and dead; but when he came to his own, his own received him not; whilst in its place, even passive and departing Democrats are bowing the eringing suppliant knee to the white-crowned, white-coated, white-end sepulchre or tribunal, of passive or sectional, deep-parted, political judgment, as promising, in the sectional benefits of land, labor and capital monopoly, perpetuating the same state of domestic, moral and political slavery as his Granted, military, reigning-time brother, floundering around, baptised and buried in the same fountain of general con-tammy-nated, sectional, political corruption. Whilst the departed, not dead, but peacefully sleeping principles, policies and practices of the only one true national union and constitutional Democratic party are the mediatorial, divine, peace creating head, moral union saving body, and spiritual liberty redeeming understanding as the only true mediator, or the only true saving means of political salvation between the positive

legitimate fatherly creator, and the negative, illegitimate destroyer of self-government, changing a government of free, sovereign choice into one of slavish, military force, forcibly exchanging general, national and stately, domestic, political and religious liberty for sectional, protected and capital, mastered, domestic, moral and political slavery, enforced, winked at and sanctioned by the black Republican, sectional, family, church and State.

Here then is the whole *Gospel*, the law and the (*profits*) prophets. Here, likewise, is the Democratic, wise *plan* of *divine*, worldly, and national, Democratic, peace creating, *moral*, fatherly, brotherly and spiritual union-saving, and spiritual constitution-obeying, and liberty redeeming, political salvation, against the black Republican, sectional, passive or departing plan of devilish, worldly, national and domestic, war-creating, im-moral, fatherly, brotherly and spiritual enslaving, condemnation, through the means of protected, capital, corruption and land, labor and capital monopoly, spiritually reigning a pan-de-monium of military despotism, with the blasting, bated breath of Democratic, stately church, canon-ized, held-fire and brimstone dam-nation, and political destruction of all the principles of self-government, leading to a capital-mastered, labor-enslaved monarchy, or foreign military despotism, determined to destroy this first worldly, successful experiment (in Democratic hands) or national form of self-government, unless nipped in the sectional, passive or departed pre-mature buds of promise before they burst into the hypocritical, cloven-footed, e-goat-is-tickle flowers of eloquence, and before the yield of another four years', sectional, passive or downward, departing crop of the apples of discord or the forbidden fruit from the proscribed, sectional garden tree of life, liberty or knowledge, which not only caused the fall of man individually, collectively or generally, but also of all the domestic, moral and civil governments of men.

Then we have but two plans of political salvation laid down in our strait hickory, ruling log book of political events. One is Democratic and national; the other is black Republican (*rightly named*) and sectional. The former is the positive, national-creating or constitutional, union-saving plan or legitimate means of political salvation, leading to the greatest divine blessings of peace, union and prosperity which this world can give! whilst the latter is a sectional or passive departure, having no positive plan of union-saving virtue or legitimate means of political salvation, and all its negative principles, policies and practices, lead only and in-evitably, no matter which crooked lightning fork of the down-ward road you take into the same swamping fountain of *political corruption*, ending in the political slavery, unconstitutional, foreign monarchy, or imported, may-jest-stick livery-covered bully, tory or sectional hooking, military despotism!

Choose then this day, O ye honest, conscientious, patriotic men of this nation, whom you will serve. If this sectional God of mammon, God of slavery, God of war, be your God, then serve Him. But if the national union and constitutional saving God of divine worldly, national and domestic peace, moral fatherly, brotherly and spiritual love, and spiritual, domestic, moral and political, redeeming virtue, be your God, serve Him faithfully; for herein you shall speedily have your sure reward! Or if you choose either of the three sectional, passive or departing heads of legalized labor reform, of try-bunal, tare-iff reform (with tare-iff reform left out of the sovereign crown of the rising sunflower, double-cabbaged head or fresh opening morning glory), or the General Grant-tied military, enforcing civil service reform by one General Granted man who has done more relatively, proximate and re-mote to de-form the civil service than the other heroic, executive, military, civil and uncivil executioners since the fall of the first man Adam.

And great has been the Granted *Niagara*, executive, political fall, my countrymen !

These are three of the chief sectional, passive or departing heads of the hydra-headed or seven headed and ten horned, bloody and fiery red *war drag-on* monster sectionalism ; all departing towards or silently stealing a march on the Democracy, by feloniously appropriating the prolific principles, policies and practices of the great national, Democratic egg, to their foul, sectional, hatching nest of *treason*, stratagem and spoils, more especially the latter spoiling, Granted nest egg.

But the illegitimate, polly-game-us, may-home-maid of sectionalism, must come to the national union and constitutional saving mountain of Democracy, or the elevating hill of science, civilization and Christianity, and mark on our national field notes, their errors of latitude and departure from this straight and narrow path, into heathenism, barbarism, and even into savage life. There is no other plan whereby the laboring man, his self-creating rights to his own servant capital, and all general right to an equalizing, distributive, protective form of self-government can be saved. In other words the Democracy is the only true national labor reform party, saving revenue tar-iff reform party, or effective, civil service reform party, in this land of the *free*, home of the *brave* and *soup-peer-i-eer freedom* of the *slave* !

We should learn to judge men by their works or deeds, not by their empty, soph-is-tickle, soft-sap-soap-it-all and e-goat-tis-tickle, deceptive buds of promise *pre-may-tour-lie* and *ex-plo-sive-lye* bursting into hard, ironical, protected flowers of language, pro-duce-ing in season and out of season, and all the time this pro-lific, sectional apple of discord, compulsively compelling each and all to partake of this forbidden fruit, which first brought disobedience, sin and

death into the world, as also into this national, political Eden or first self-governing paradise of man!

I say right here (on my own responsibility, and shall so proclaim it, and defend that proclamation before the world) that this positive, divine, national, creating or peace making, moral union saving and spiritual liberty redeeming Democratic party is the best, the steadfast and the only poor man's friend!

To prove this assertion, let facts be submitted to a suffering, enslaved people, and also to a candid world. Before the general devastation by civil war in our land, caused by the sectional demon of jealousy, envy and hypocrisy, the consolidated, besetting sins of man, representing the devil personified or embodied in the swinish, grassy flesh. I say before this civil, uncivil war, we had but one great united nation, one domestic, moral and political house (as it were), with one united, prosperous and happy national family, with none very rich, none very poor, but all were in medium, happy circumstances; consequently all were contented, happy and independent; and when contentment was a fortune to all honest, temperate, *in-dus-try-us* men; when happiness created a domestic heaven on earth, and that, too, under the best national union and constitutional government of the world. Then independence was a national or general necessary accomplishment of all conditions in life!

Now, we have two reversing, extreme, sectional classes, separated far apart, and acting as coolly toward each other as the poles of the earth. The rich being the positive, capital-creating, aristocratic or longest pole, which knocks all our bonded, high interest bearing, rich, golden *purse-sim-ons*; whilst the poor are compelled to take the shorter, antagonistic pole of adversity, of pauper labor, the short negative pole of positive life, with which they stir up this den of devouring, roaring lions; these aristocratic show-

cages of unclean beasts also stirring up and feeding this carry-van of human hyenas, who are spiritually digging up the graves of our political fathers, virtually eating up the substance of, and howling for the skeleton Bony-part-remains of their children, thereby cutting out and destroying the happy, contented laboring heart of this nation.

Now independence is a sectional luxury, enjoyed only by the aristocratic slave-holding bond-holder ; the political power accumulating, national banker ; and the political, corrupted, protected, monopolizing capitalist.

This former state of peace, union and prosperity, was under our Democratic constitutional, life creating, union saving, national equalizing, life, liberty and property system, the place, and the only place where impartial equality, liberty and protection can come in, and do justice to all parties, instead of as now doing injustice to all parties. Then black Republican "equality before the law," is a may-jest-stick, hypocritical mis-nomer (not she of fee-male suffrage no-to-riety) which should more appropriately read "sectional extremes." The law, or rather sectional extremes, are their general rule, and equality before the law, the pro-scribed exception ; excepting always that we can all equally read our masterly capital, title clear to law-enforced domestic, moral and political slavery, enforced equally before the law, over all white, red and black Republicans alike (except the official, protected, land, labor and capital monopolizing masters) over a Maine head of Massa-choosits own sectional yankee ringmasters. I say they have typically, figuratively and prophetically enforced political slavery equally over the balance of us poor interest paying, tar-iff rented, taxed to death, political sinners, alike without regard to figurative race, typical color or prophetic, previous condition of servitude, of God, man or the devil !

And now we can prophetically call the national *role* of our white as well as *red* and dough-mess-stick black slaves, un-

der the sainted shadow of Bunker Hill Monument. Also, this *mis-no-more* of mortified, deep-parted, black Republican sectional equality before the national law, means a two-faced government, with a black-faced master, slave ruler over their reversed white-faced slave master in the South, and a white, brassy-faced, greenback ruler in the North, *equally* protecting land, labor and capital monopoly as the General Grant-tied capital master, through *unequalled* military power, before civil law, or equally consolidating all the Granted powers, of official protective tare-iff, leg-is-la-tied, General Bond and slaveholding, and Granted national banking powers of political corruption, forcibly, officially, imp-peer-i-ally, crowning, capital the supreme master, and foolscapping LABOR its sovereign supporting slave. Thus by these reversing extremes of sectionalism (miss-named equality before the law), or a long way behind Democratic law, which means not only equality before the law, but also behind the law, above and below, to the right hand and the left, and all around the law! I say these reversing extremes (before law) have reversed, revolutionized and overturned all civil law, and under this magic, sectional trans-formation, trans-sub-stantiation, and trans-fig-your-ration, capital, the former legitimate child and obedient servant of labor, has now become the illegitimate, but official government protected master over its own creator! Under the same sectional reversing extremes before equal national law, our former law givers, or chosen servants, who freely executed their sovereign master's will, have now become the granted imp-peer-i-all soup-prime masters of the capital and military, climax crowning situation, and we the sovereign people have become the humble, domestic, moral and political slaves. But as we have thus humbled ourselves, even so, according to Divine promise, shall we soon be exalted. This double extreme cloven-footed, sectional, reversing rule and equal law exception, by changing the entire order of things in the Southern

conquered military district under our military before civil law, Stately reconstructed, now foreign carpet-bag and African colonial governments, where the ignorant *soup-herdish-us* slave of yesterday has become the wise statesman, learned law-giver and sovereign supreme financial ruler of to-day, forcing, swapping and sovereignly reversing, with his former master, or freely and supremely exchanging hue-milly-ating relations, situations or reversed conditions with his own acknowledged former chattel property, under the Divine moral and spiritual constitutional law, but where this same former master becomes the first military-conquered white servant, in this seven years jubilee of pro-found peace, under Granted sectional equality before law, in this land of the free, home of the brave, and supreme freedom of the imp-ported slave! whilst his former slave has become his present sovereign master, supreme law-giver, and corrupt and stately financial agent, thus changing the form of this first pure white Republican self-government as established by our patriotic, political fathers, first to an unconstitutional, sectional, military, know-nothing rule, native Indian, bloody and fiery red war dragon, red Republican form, then to a black Republican, unconstitutional, unlimited and unlicensed monarchy, or Granted one Massa-choos-its stately, or now a one man General Granted, military despotism, or black Republican, imp-ported form of self-government. Thus basely changing the entire sovereign base of this pure and only successful white Republican form of national, stately and domestic self-government from the native white creating head or throne of political judgment, to the black Republican, foreign African element holding the sectional balance of power, determined to hold in that downward scale the Grant-tied balance of power, whether for good or bad, for the right or wrong, for the salvation of a part or the damnation of all, it matters not to them. The sovereign *die* is

cast, the bloody Rubicon has been crossed, and this government of our fathers is no more, neither indeed can it be resurrected under the destroying effects of sectionalism.

This black sed-e-ment-ary balance of power has lately been weighed in the De-mock-rye-toe-passive Greeley scales, and found wanting, Grant dictating also to the true Democratic, National Union servants, the positive, legitimate creators of this self-same government, whose principles, policies and practices are the only practical peace making and Union saving means of this great political salvation. I say this base balance of power is dictating to our positive, Divine government creators, moral Union saviors, and spiritual liberty redeemer, under what sectional Grant-tied master they must, should and shall serve! My trinitorial theories are entirely original—new and true, even to me—and by way of apology, as a typical, allegorical, figurative, historical, or pen-pointed, prophetic, prosey or rhyming scribbler, I am just entering on my third year. As a revelator, ex-pounder, or de-lineator of the natural, scientific and systematic trinitorial laws, just entering on my second year; and as a political writer, scribing, trans-cribing and de-scribing the application of these trinitorial laws to domestic, moral and civil, or political governments, I have not as yet completed my first year. Hence these theories being newly true (not allegory, novelty or fiction), they need a great amount of explanation in their general application, with the end in view of a better understanding of domestic, moral and civil governments, and only through their application can we give any good, sensible or correct reason why we have three races of men, distinguished by their three national colors, and three degrees of civilization, Eve-een when coming from the same domestic tree of life—liberty, or knowledge—of which *Adam* was the *root*, *Noah* the *body*, and *Shem*, *Ham* and *Japheth* the trinitorial branches of this prolific tree of life. Now, my trinitorial platform is as

broad, as high and as deep as the whole un-cir-cum-scribed, un-bounded, un-limited universe; and in taking a general survey of this universe by the compass of the human mind, by using the three odd links in the endless chain of time, measuring and marking trinitorial events, connecting nature through the Mediatorial Son-soul and material life-saving link, up with nature's God; taking our solar meridian bearings, with the celestial north polar pointed needle of eternity, measuring and marking on the terrestrial field notes of the world, the human errors of latitude and departure of these three races of men, from this straight and narrow path of science, civilization and Christianity, under the general law of the westward march of kingdoms, empires and republics, re-marking that Ham, in violation of this general law, departed South, first from civilization into heathenism, barbarism, and eventually into savage life, and for the violation of this general law he was punished with slavery under the trinitorial curse of Canaan, and was spiritually weather-beaten with many raw-hide tannings, bearing the black raw-hide, earth-marks of slavery even to this day! The tribe of Japheth departed eastward, also into heathenism, barbarism and wild Indian savagism, and for the violation of this general law was likewise tanned or punished by the red-tanned, raw-hide sun marks, or the elderly Cain drawn, Abel brotherly envious blood-marks, or the wild, brassy, Indian face marks, all showing war to this day, of this second trinitorial Ishmaelitish curse of Canaan, or pie-us father Abraham's typical, il-li-get-i-mate, Ishmaelitish wild woods colt of the wilderness, the barbarous Arab and wild Indian, whose bloody-red right hand should be against every man, and every man's hand against him.

Here, then, in this divine plan of domestic salvation Shem is the mediatorial, positive, government and peace creating; moral, Union saving, and spiritual, liberty redeeming; domestic, moral and political mediator; between the extreme

erring and departing curse of Ishmael or Japheth on his right hand, with the wild and domestic sheep, and also the extreme erring and departing curse of Canaan on his left hand, with the departed goats and the accompanying field of black, stray sheep! Thus I have given a brief pen sketch, skeleton or outline view of the divine plan of domestic salvation, as well as of spiritual and political salvation, under my new theoretical application of the trinitorial laws, but further and better illustrated, perhaps, by showing that we have a domestic trinity, where the father, the mother and the children, all acting in different spheres, revolving around the same fatherly, celestial head of government, yet all three composing but one family. Here is found the first common school where we should first learn self-government; and here, too, is where this great worldly reformation must commence, and self-government is the first lesson; and unless we learn to govern our own evil passions, intemperate habits, or unlicensed lessons of extravagance, we are not qualified to become as sound timber in the supporting columns, stately pillars, or platform frame-work either in the churchly or stately building. *Second:* The spiritual trinity is the Father, Son and Holy Ghost, all acting in different spheres, yet one in spirit, or governed by one head, called the Godhead, and the divine plan of spiritual salvation is through the mediatorial (Sun) son soul and material saving mediator between God the divine creator, and man the spiritual creature. *Third:* The political trinity—the three departments of government—the legislative, executive and judiciary, where the judiciary is the head of justice, judgment and mercy. The legislative is the mediatorial saving body, of life unto life or death unto death, according to its relative executive understanding, or where all primary government is derived from the consent of the governed, where the people are the sovereign, positive or legitimate fatherly creators of government, and the Union, national

constitution is the legitimate child, the general servant, or the younger obedient creature of its own sovereign creator; whilst the reserved stately elder brothers are the mediatorial (Sun) son-(soul) sole government—saving mediators between the sovereign creators and their national, law-serving creature.

This, then, is the positive plan of political salvation, and if it is all-important that we should do our Heavenly Father's will, and understand his divine plan of domestic and spiritual salvation, is it not also important that we spiritually do our political earthly father's will, and understand and carry into practical execution their positive plan of political salvation—especially when that plan has been practically tested, tasted and tried for seventy years, and was found to yield the largest amount of national peace, union and prosperity that this world of departing extremes ever knew? Then, if the consent of the governed is the basis of self-government, the majority should rule. The Democratic party are to day, always were, and always will be, as far as correct principle, policy and practice is concerned, in the majority, but not in the ruling ascendancy, because directly, of some of their national sins of owe-mission, com-mission and dis-mission, by the sacrifice of principle inconsistently for the sake of the uncertain promises of hypocritical expediency, and indirectly by sectionalism, selling out national Union principles for sectional, anti-slavery, disunion and civil war expediency, forcing the whole people into effective, double cloven-footed, sectionalism, disunion and civil war, resulting in hatching out the full fledged sectional nest of treason, strat-a-gem and spoils, by these sectional political war scribes, great Phar-I-sees and little Sad-u-sees arresting, arraigning and crucifying or condemning to the death on the cross, before Pilot's nullification bar of northern sectional, anti-slavery opinion, crying in their wrath, Away with him, crucify him—no compromise

with slavery, even for saving the life of our Union savior; declaring that this Union should not live one half slave and one half free, and finally resulting in the last sanguinary plea of a long standing civil war declaration that without a little blood-letting this Union savior was not worth a curse! Thus typically, figuratively and prophetically sacrificing our Democratic, national, constitutional, Union savior on the cross of the Northern compromising and Western uncompromising, stately Missouri line! Thus this was a Northern (Link'd-on) Lincoln sectional, aggressive, anti-slavery, and a Southern (Broken-ridge) Breckenridge defensive, pro-slavery, civil war of their own seeking, from whose primary, sectional first cause, secondary disunion effect, and final civil war results, the great Douglas Democratic national, constitutional Union party are as innocent as the babe unborn, and on whose skirts cannot be found one drop of their General Cain slaughtered Abel brother's blood. They faithfully to the end preached peace, union and compromise, and protested against the treasonable rebellion of both war-ringing factions, and are therefore not responsible for the devilish, treasonable, sectional, first cause, the rebellious, double cloven-footed, disunion effect, and most damnable, disastrous civil war results. The Democratic party came not to condemn, but to fulfill; obey and magnify and make honorable the law of our political fathers, spiritual grandfathers, or divine great-grandfather, the great Creator, governor and regulator of all motion, mind and matter, whilst spiritual mother country representative, bully, tory, hooking sectionalism came only to condemn the law, to destroy our government, or divide this great national Democratic Union house against itself, so that sectionalism might establish on the ruins thereof the greatest, fastest and most progressive bonded or unbonded aristocratic monarchy, official protected system of political slavery, or relative, capital corrupt, granted military despotism of the world! Then we shall arrest and

arraign, and impartial history will hold this sectional reigning die-nasty as responsible for being the first cause of slavery, the first cause of sectionalism, the first cause of disunion and holding human chattel property; thus becoming the secondary legitimate effect of slavery, of sectionalism, and of disunion, and this antagonistic meeting of this aggressive, offensive first cause, and its resisting, defensive effect, the positive, illegitimate creator and its negative legitimate creature, the thieving original transgressor and his guilty but less sinful partaker, resulting finally in the most disastrous, ungodly, savage civil war that ever disgraced any section, tribe or nation. Then if this great national Union and constitutional Democratic party were not partakers in this first sectional cause of this national Union government, betraying, treason, rebellion and revolution, why should they attempt to betray their party and rebel against this peace-making, Union-saving and liberty-redeeming government of their fathers and embrace this sectional, official treason for the sake of revelling in the bloody right-handed war results of stratagem and spoils, thus betraying into the hands of our self-conquered enemies, rebelling against and dividing our Union forces, and thereby spoiling the government of our fathers, and virtually destroying, undermining, or at least departing from our only earthly means of national, political salvation?

Are the Democratic party the cause of Ku-Klux-ism in the South? If so, why so, wherein, or through what agency, directly or indirectly, is this effect brought about? The Democrats are, always were, and always will be opposed to all secret, political societies, both North and South, as well as treasonable, sectionalism both North and South, and also to all rebellious war parties both North and South. But rather than bear this blame any longer, we will transfer it to where the first aggravating cause belongs—to the General Granted head quarters at Washington City, U. S.,

D. C. and Ku-Klux-ism is but the secondary effect of this aggravating first cause. Here we need the aid of our union savior, the national physician, who wisely traces the disturbing effect back to its aggravating, first cause, and applies the remedy to the seat of the disease, removes the cause, and the effect will depart. So with all the primary, first cause and secondary effects of sectionalism ; two wrongs can not make one right, however good either wrong may profess to be. It is not the whole that need the physician, but the sick, constitutional, consumptive patient, the eruptive, disruptive or the corrupted of blood from excessive, intemperate and head-sick bathing in the fountain of political corruption. Sectionalism is not only the effective States' rights, nullification of the national, figurative slave law, and the general government repudiation through the devilish, destroying agency of disunion and civil war, but it is also the effective cause of the national, constitutional, consumptive and black tongue, and military plague diseases, affecting the whole national, constitutional body politic. The Democracy is our great national union and constitutional physician, and the only one that can make this nation whole, and the only physician that can, must and will remove the aggravating cause of sectionalism, by a heavy purgative double scraped dose of emetic and cathartic butternut physic, removing the debilitating, demoralizing General Granted effect, and the constitutional disease will be removed from the whole body politic!

God is our great physician ; Christ our good union saving Samaritan who found us by the way-side stripped, disabled and plundered by professional thieves ; but who poured into our wounds the oil of joy for mourning, and the spirit of love, peace and the patience of virtue for officious heaviness, and this same spirit is the power behind the throne greater than the thrones of all kingdoms, empires and black Republics, which maketh the wrath of man

to serve him; but these reversing extremes of sectionalism must serve the demoniac spirit of war, not being satisfied with either of the three peaceful ways of abolishing slavery, which I have in my reforming, law-giving and peace-making book of the world pointed out.

As without the shedding of blood there is no remission of sin (but blood should have flowed only from the original transgressor and his sinful partaker), thus washing in the sacrifice of human blood, slavery, our domestic curse, sectional vice, or last national disturbing element, which is the beginning of the end of slavery throughout the world, preparing the way, or putting our domestic churchly and stately house in order for the near coming millennium day of peace, seventh day of rest or second advent day of our Lord and loving Master, for the second time practically preaching and teaching peace on earth and good-will to men. Then is it not time that we stop and inquire: Is there no sectional mortal plague in Israel? Is there no political balm in Gilead? and is there no union physician there?

All this treason, rebellion and revolution originated with this one-third minority, outlawed, sectional, accidental party, which had effectually and forcibly, according to their own programme, caused these trinitorial sectional division of parties, they representing but a faction of the northern half of this nation, standing in aggressive, offensive, declared battle array against the legal constitutional, domestic institutions in the Southern half of this union, where this national destroying sectional party had no representation whatever. A plain case (of their own seeking too) of a military, professed higher law, but practical lower law power, usurping the prerogative of a free government, by forcing one-half of the nation to submit to the rule of an aggressive, offensive foreign power, without the consent of the governed!

Hence, I say it was merely one sectional, aggressive, offensive, outlawed party, compelling; or like-begetting, like, or dislike, and forcing into existence effectively a secondary defensive sectional outlawed party, but both cloven-footed children of the same bloody and fiery red war-dragon hydra-headed monster sectionalism. And these two illegitimate outlawed sectional children have become the first destroying angels of death in our second Eden Garden spot of the new world or in this Democratic political paradise of peace, union and prosperity, and this, too, against the positive solemn warnings, predictions and protests of the national union Democratic party, the creator, successful gardener and chief ruler in this garden, protesting against this national suicide or equally against both the primary first sectional cause and the secondary result of this double cloven-footed sectionalism, disunion and civil war!

The Democrats preached peace, union and compromise to both war-ring-factions, and were tauntingly called peace dough face, butternut union savers, and mealy mouthed slavery compromisers, typical of the three measures of meal, figurative of the union Democratic leaven which shall leaven the whole national lump, and prophetic of this Democratic peace dough-faced political bread of life which feed all peaceful, liberty and freedom hungry nations of the world. Cast your bread of life, liberty and knowledge on the troubled waters of the little Indian, greater Atlantic and greatest Pay-cific peaceful Ocean, and it shall be gathered and nationally garnered up after many days!

We, the Democracy, have meekly been humbled as the peace-makers, and have been persecuted for righteousness' sake. We will go up higher and claim the Divine promises. We shall inherit the earth; be exalted as the children of this God-ess of Liberty, and become heirs and law-givers in this "political kingdom of heaven on earth!"

Then let him, them or the sectional party beware (in the

hands of their potter) from whence this great sectional offense first cometh. I here declare that black Republicanism is, was and will continue to be the first cause of sectionalism, disunion and civil war, and if the only one true great national union and constitutional Democratic party sell out to sectionalism (or start a passive Greeley opposition sectional gift lottery to the established General Granted relative gifted scheme), they must become responsible for its inheritable effects, and be satisfied with its political enslaving, General contammy-nating, national destroying civil war results. Then let him, them or the parties beware also from whence this great national offense first cometh !

These political Judases have sold out and betrayed into the hands of his enemies our Democratic national constitutional savior, into sectionalism or deep-parted passivism for thirty pieces of greasy paper rags, in the place of their retired (with rags) gold or silver. They have rebelled, and through voluntary treason betrayed for the first time, since the government was formed, the whole Union and only national Democratic army over three millions strong into the divided, demoralized and de-parted sectional camp. Is it, then, a mark, a Biz-mark, or rather not a miss-mark of war, peace, or even of ring-policy generalship, when we see our own national, constitutional peace army united on the peace-creating, Union-saving and liberty-redeeming principles of our Democratic revolutionary fathers who created this government, and whose principles are the only means or saving plan of political salvation, and the enemy are divided in their principles, demoralized by their policies, and departing into sectional divisions. I say, or rather ask and repeat the question, Is it good generalship, under these circumstances, to out-flank this divided army, surrounding, by the legions of truth, under the bannered army of the Prince of *Peace*, taking into detail each grand division,

striking deep with the sharp principle sword of the right, into the principle corrupt shielding of wrong? Meeting with the divine union policy of peace, the demoralized legions, upholding the policy of war, thus capturing in detail the Union detached; practical sectional deserters, of tariff, labor and civil service reform, back as new recruits into the Democratic camp, where they naturally belong; or, seeing generally, the national sharp-pen-ned point, that the Democratic party is thus united, but sectionalism is divided against itself, departing and generally demoralized; or would it not be or show better generalship according to the late bargain and sale programme for the only national, constitutional union army of Democracy to desert (with a bountiful Union victory in view), into the antagonistic, divided, departed and demoralized ranks of sectionalism? Why should we sacrifice national principle for the doubtful sake of stratagem, spoiling, sectional, departed expediency, whilst sacred principle, successful expediency and national honor are all found only in the exact opposite direction? Or even admitting this doubtful expediency may be crowned with more doubtful success, should we sell out our national union and constitutional birthright for a doubtful, sickening, unhealthy mess of jealous, green, Greeley tare-iff' raised, sectional, passive, deep-parted pottage, and also be cheated out of our father Isaac's national blessing, merely for the sake of hypocritically beating the envious Jacob-eyes'd Grant? beaten, too, by the elder Cain-drawn blood of our Abel younger brother! Let others do as they will or think best, but as for me and my house, I will have no sectionalism, passiveism, or departing, military despotism, enforcing political slavery in mine. If I cannot vote for my chosen Democratic national union savior, I will not be compelled to choose between two evils, and to vote for either the general Granted devil nor yet for old Belzebub, the Granted prince of devils! If the Bawled-tim-more Convention confirms

the sectional, bargain and sale, the her-maphrodite bas-tird *whole-lie* ghost, they will have to contend against the united world, the anti Greeley flesh and the Grant-tied devil!

We were all forced into sectionalism during the war, but if we sell out, and depart from grace by forcibly putting a sectional dead-head on the national living Democratic body, and passively submit as a party to be baptized in the departed Dead Sea fountain of political corruption, we become equal partakers with this first cause of sectionalism, disunion and war, in partaking freely (through this *Granted* promising, snake in the grass Greeley) of the forbidden fruit plucked forcibly from the Democratic tree of life, liberty and knowledge, called the sectional apple of discord, also of eating treasonable, rebellious, repudiated dirt with this accursed, fallen, black serpent, becoming effectively responsible for this anti-republican, imp-ported form of foreign monarchy, political slavery, and military despotism, the greatest erime of the age, resulting in a disobedience of the general law of our national, union and constitutional salvation, the unpardonable sin before the *grave* spirit of our departed fathers who created this national government, bringing only sectional, departed political death!

Sectionalism, whether in the active *Granted* or passive Greeley form, is very promising in its nature—promising all things to all men, but performing nothing for the general good; promising peace before the war, for the sake of getting the national government in their own hands, but determined on this anti-slavery and pro-slavery war from the very birth of sectionalism, and after creating civil war according to the first illegitimate cause and original design of these secession, reserved stately, national slave law nullifying, disunion and sectionalism creators; promising, hypocritically, not to interfere with slavery for the sake of obtaining soldiers to fight these disunion battles of their own seeking, but pre-determined in their own hearts to wash

out slavery through their higher law. Jealous, pie-us, elderly Cain-drawing Abel-innocent brotherly blood; and after ereating this civil war, through envy of the more acceptable Abel offering of this shepherd sacrifice of the lamb of slavery, effectively washing out slavery according to the original programme, but for the sake of still reveling in the official element of their own hatched and now fool-fledged treason, stratagem and spoils; promising not to establish negro equality, but still having this original design, or sectional programme, or this united churchly and stately effort, first, to create civil war; second, abolish slavery; and third, to establish in this Southern conquered military district, claiming to be held under the province of the Northern sectional government, held as so many stately African, colonial, or carpet-bag governments, forcibly held under military power (or military equality before civil law), forcibly reconstructing through the vile means of Stately, negro equality, or sovereign slave supremacy over his former master, thereby forcibly changing the white base of self-government from the native element, holding as essential and sacred the intelligence, qualification, property, representation and the free consent of the governed to the baser, black African, foreign elementary form of self government, where the basest mother wit tincture or essential oil of ignorance, spiritual essence of poverty, or flavoring extract of slavery is the sovereign rule (in this forced equality ring before law), or where the ignorant, servile slave of yesterday has been forcibly exalted without the consent of the governed, as the wise statesman, sovereign dictator, and supreme law-giver of to-day, holding the Grant-tied downward scale in the military balancing power of government in the Northern sovereign as well as in the Southern law-making, sovereign, supreme scale of corrupt, military supporting and strategetic, treason, spoiling government. Thus all the promises of sectionalism, black Republicanism or opposition

to the Democratic party, in their whole catalogue of promises from the first man Adam down to their last Grant-ed Moses, who is now taking his last sea-side view, or last (Mt. Oreb) mounted Arab and lighted cigar spiritual view of the promised land—have reversed every promise made before the people, whether considered at the time either as sacred, jest, or profanity. This same promising opposition fellow, sectionalism, has also reversed every principle of self-government which our Democratic fathers, the legitimate positive creators of self-government held sacred, which I have shown fully in my great book comparing the positive principles, policies and practices of the Democratic national creators of government, with the negative principles, policies and practices of all bully, tory and sectional, hooking, cloven-footed opposition, or sectional destroyers of self-government. Then if our Democratic fathers, and we, their legitimate political and spiritual sons of liberty inheritors, were right in our national, constitutional and union-saving plan of political salvation, and have an abundance of practical, blood-bought and liberty-recorded evidence to prove that undoubted, indisputable, in-estimable right, then is sectionalism wrong, and through these revolutionary, over-turning or reversing extremes of sectionalism, this government to-day is virtually standing on its head, and it is my mission, and should be the mission of the whole Democratic party, to assist, as they only can, in putting it on its feet again; whilst passiveism is but a back-set into the jack-ass seat, or like the balky mule taking the dead-head, body and four legs back-set when he should pull evenly ahead in the old running-gear traces; or standing passively like the butcher's block on its cross-cut, but, waiting for the slaughter to commence of the innocent, passive Democratic sheep, which are ready to lick the sectional butcher's hand, ready now to shed and sacrifice their devoted national blood. And shall it be said of our union-saviors that they were willingly led like the innocent

lambs to their slaughter, or like the old unwashed sheep before their black-wool shearers, they were dumb and opened not their mouth, and breathed not one baited breath against their shorn liberties?

I suppose that the black Republican party innocently think that even through the destroying means of war they have accomplished a vast amount of good by forcibly abolishing slavery, and establishing negro suffrage, (which is not a natural, but a granted political right of the free man), and forcibly reconstructing stately African colonial governments over the conquered ruins of the South. But the end (foreign monarchy, political slavery and military despotism) cannot justify the means of force, fraud, and the military power over civil law, to accomplish that end, to say nothing of their mountainous national debt of responsibility, as well as of greenbacks, for the rivers of innocent blood shed, and political wounds on the great national body politic which no sectional medicine can practically heal. In other words, sectionalism, passiveism, or any departure from the saving spirit of our political fathers cannot legislate to suit a free people, much less in this land of freedom, or first political paradise of domestic, political and religious liberty, where we have had a foretaste of the obedient Shemite fruits of peace, union and national prosperity, under our former union plan of political salvation which the world ever knew, and which it can never know under black Republican rule, for they have changed the key note from the government scale of harmonious choice into a devilish discord of military force, or of may-jest-stick, livery-covered, lower law power, over the equalizing, protective, justice, judgment and mercy of civil law! Then this sectionalism, passiveism, or whole-lie-ghost of departure should be honorably named the promising, reversing, forcing party, or the promising hypocritical deceiver, with the double cloven-footed understanding of these reversing extremes of sectionalism; enforcing all their

despotic decrees through the military power over civil law, with a reckless, devil-may-care for the consent of the governed!

It was no departure of the Democratic party acknowledging the sovereign law, no matter how bad it may be, or how unjust the means used for accomplishing that end; they are not responsible for what they cannot prevent, especially after entering their protest against that wrong, any more than it is a wrong and a departure for the Christian to acknowledge the power and demoralizing laws of the spiritual devil, (the demon of jealousy, envy and hypocrisy, the besetting sins of men, the devil typically personified in the flesh, and governing, more or less, every fallen son of Adam), after protesting against his infernal lower-region, sectional, destroying laws. But it is a great departure when we sell out, betray, or turn our back on our only national and constitutional union savior, and be-head (or as the saying is), put a sectional head on our national body, force a sectional, departed heart into that warm, palpitating union body, adding a departed, cloven-footed understanding, burying in granted political corruption this whole constitutional body politic, then we become responsible for illegitimate first head cause of sectionalism, the damnable effects of disunion and the destroying results of civil war. I will here venture the bold assertion, on my own individual responsibility, without the fear of a successful contradiction, that this devilish, spiritual trinity (mentioned above), is the first cause of the downfall of man, the downfall of parties, and the downfall of nations, not only of republics, but also of kingdoms and empires, throughout the whole world. Then why should we sell out our union principles to this death-dealing, nation-destroying evil spirit of sectionalism, and bow down and worship their domestic, churchly and stately heathen god of slavery, god of mammon, and god of war? We have already sold ourselves out unwittingly to this heathen trin-

ity, and have been serving him patiently and faithfully, but not understandingly, for the last twelve years. First, then, in the year A.D. 1860—most memorable, historical and eventful year of American history, in the trinitorial, political warfare of that year, leaving out in the cold the stray bell-weather, or wild native American Indian or red Republican, from the camp of the black Republican sheep. Then we had only the one true national, Douglas Democratic party, with a positive, legitimate, national head; a moral, mediatorial, union-saving body, and a spiritual, constitutional understanding, whilst the black Republican *co-horts* were represented by a sectional, illegitimate, war-creating head, and immoral, union-destroying body, and a spiritual, antagonistic, cloven-footed, Link-on, anti-slavery and Broken-ridge, pro-slavery understanding, of civil war. Then we had this personified, devilish, green-eyed monster, jealousy, of the head, red-hearted envy of the body, and with a black, cloven-footed understanding of hypocrisy, or the one-third bodily man, with the two-thirds beastly extremities, putting an aggressive, anti-slavery head and offensive, cloven-footed understanding on this black Republican body; and as like begets like or dislike, even so this black Republican body begat its sectional, but antagonistic counterpart, and put a defensive (not political) but pro-slavery head, and a dis-union, cloven-footed understanding, of this black Brackenridge pro-slavery body; but both cloven-footed sections united hand, heart and body, and the devil took the lead of these two foremost parties in sectionalism, dis-union and civil war, leaving the great national union, Douglas Democratic party behind, preaching peace. But here on this broad, black, flat-footed platform we were spiritually sold out for the first time by our chief Butlers, Broken-ridges, and Linked-ons to the god of slavery; and after being forced into the civil (uncivil) war to fight this double treason, rebellion and revolution against all our peace, union,

compromise protests, we hasten on to the next four years' Presidential term, when by the means of a mistaken foresight in the Democratic party, by their inconsistent, double-dealing, equivocal platform, declaring the war a failure, but at the same time putting on that war-played-out platform (although a very good man), our strongest general, McClellan, and war candidate for President, and through this means (innocently, of course), selling out by their own act the whole Democratic party the second time, virtually or spiritually, to the heathen god of war! Then after four years more of forced service, under a chronic sectional war of capital over labor, and through the corrupt mire of political pestilence and financial famine, and again the Democratic hosts assemble in national convention to nominate another candidate for President, and then and there, even in this New York head center of general con-tammy-nated financial corruption they constructed one of the most just, wise and good, able, bodily platforms, spiritually, politically and practically, leading us back into our former national Democratic paradise of peace, union and prosperity; but beheading that living body with a dead-head of bonded and general con-tammy-nated financial corruption, facing, working, and marching in the opposite direction from this platform, and thereby unwittingly, but freely, through green-eyed jealousy of the head and black hypocrisy of the western understanding, for the third time defeating, disappointing and selling out our national Democratic union savior to the god of mammon; second, to the god of war; and first, to the god of slavery. The first shall be last, and the last first!

Here, then, we can see in this hasty general review some of our own free, sovereign, conventional sins of omission, as well as forcible general granted sins of commission; as well as the sectional, passive and departing sins of self-governing, African dis-mission. Now we hasten to

the foreshadowed crisis of political events at the sectional, Ham-might, whole-hog, Cincinnati conventional slaughter-house, where there was as much bi-pedal bargain and sale in that political packing season, as there is quad-rue-pedal bargain and sale in the pork packing season. Here, then, in the hog slaughter-ring, political and pork-packing hub of the universe, the centrifugal center of these United States, or at the warm palpitating heart of the body of this nation, or where the pure heart ought to be on the 5th day of June, 1872, by the afore-said Cincinnati convention, and the same passive or sectional Grant-tied, departed party, is the time when, the place where, and the manner how, this great national, constitutional and union-saving Democratic party was for the first time freely offered up as a national sacrifice on the civil war, burning and bloody altar of sectionalism to appease the granted wrath or sectional vengeance by bowing down freely to this Democratic Co. and sectional-show, of this double cabbage-headed philosopher, Greeley, and (soul-ly) (sole-ly) and sold-ly worshipping this heathen god of mammon, of slavery, and of war; or rather serving the devilish spirit of jealousy, envy and hypocrisy, the besetting sins which caused the downfall of men, of parties, and of nations, by putting a sectional head (forcibly, without the free consent of the governed, or by the slavish consent of the party ring leaders), I say by putting a sectional head on this national union Democratic body, which was the first cause of domestic churchly and stately secession, and sectional and stately nullification of the general law, thereby making this national union body responsible for the disunion effect of this first cause, and at the same time virtual, guilty advocates of the destroying civil war results of this first illegitimate cause and sectional effects of disunion, yielding the first forbidden fruits of disobedience by partaking of this sectional apple of discord, resulting in a sinful departing political death! Like legitimate, or ill-

legitimate causes produce like saving or destroying effects and yielding in the end corresponding peaceful or civil war results. Come, then, saith the spirit for the second time, and let us reason together, and reason, too, from cause to effect, tracing that effect to its legitimate results as only honest men, inquiring for the truth, the whole truth, and nothing but the truth, can reason. Then if sectionalism is the illegitimate, unnatural father or first cause of slavery, disunion and civil war (which position we take for grant-tied is true), shall we look to this unnatural cause effectively, reasonably and resultively for peace, union and national freedom ; or for like cause, like effect and like corresponding result to bring political slavery in reversing unpromising and forcible exchange for domestic slavery, a union held together by the sectional, reversing, unpromising, forcing extremes of military power over civil law ; in exchange for a national, constitutional union of sovereign choice, by the un-slavish, un-ringed, un-collared, free consent of the people governed, bringing also as a final result a like chronic civil war of capital, the servant over its legitimate master and creator, and by and through these sectional, reversing, unpromising, forcing extremes of this promising, reversing, forcing party, forcibly exalting and crowning capital the corrupt master, but humbling labor, its bread of life, giving virtuous, but tributary slave, and all these reversing extremes of reigning sectionalism in exchange for our former national political paradise of a model state of peace, union and prosperity, which this world before had never seen, and which sectionalism can never give, nor yet much longer take away !

But why sell out the only national union and constitutional party in the land into sectionalism, especially when sure victory was just ahead, had our ring-leaders,—supposed innocent and sheepish bell-weather,—and our political gamblers, national gift scheme ; or sectional policy

lottery politicians, only acted considerably in the start, seeing that sectionalism was divided against itself and must fall, had commenced condemning itself, departing and eating itself up as it must, should, and will naturally do, if left alone, and when the great black serpent is preparing to skin itself. Then instead of the great national union Democratic party departing into sectionalism, and bowing down to these foreign sectional heathen gods of mammon, slavery and war, then was the time for this great national party to become united, because in union only is our strength, standing on the justness of the principles, policies and practices of our political fathers, exercising the judgment of reason, wisdom and charity for all, with a free understanding of justice, peace and truth, the mighty trinity of almighty power; yea, of Divine Almighty power, and will prevail equally with individuals, parties and nations that hold out faithful to the end, and none others can claim the Divine promise; whilst sectionalism is weakness, and cannot stand without calling to its support the despotic military power. I predicted and so proclaimed and recorded that prediction six months before the Cincinnati national sale and sectional slaughter and passive thrust at our liberties, that Horace Greeley would be the candidate for the sectional, departing, old (sore and bald head) foggy tomes; that Grant would again be the military presidential choice for Young America, and that the monopolizing, enslaving, high protective tare-iff would be the first entering wedge in the sectional, political log-book, driven, too, by the departing black Republican raised nigger-head maul, splitting that party into trinitorial pieces, prophetically represented by the Labor Reform party, tare-iff reform (with the swimming, tar-iff reform stage plank left out of the her-mor-phro-dite party), and likewise the civil service reformers' party, with an executive and self-executed head of the greatest General Granted civil service deformer

(relatively speaking), of this age, and of the whole world we live in.

But I made no calculations for this great national union Democratic party to sell out to, join in with, and embrace nigger, national debt, political slavery, and all of this most worldly no-tory-us, national con-tammy-nating and financially and politically corrupt sectional party; but the sectional die or die-nasty is cast; the human bloody war Rubicon is passed, and the national union government of our fathers is no more as it was, but might, should and shall be again!

The Cincinnati Enquirer Company, which has hitherto carried faithfully, devotedly and pat-riot-ically the Democratic banner of the prince-i-pal of peace, has long since thrown down the union gauntlet and sir-rendered to passive sectionalism, or has met the enemy more than half way on his own freesoil ground, and on pleading terms of mercy, and jumping, like the *enter-prise-ring* monkey, at the higher-law swinging limb at the distant *ko-key-nut*, regardless of the fall of man, not caring if he can but succeed in grabbing the forbidden fruit, whether the milk inside be sweet or sour, or sickening to the Democratic stomach. Then this Greeley suckling, milk-sickness, sour-krauting Democrat must deny himself, his party, and national government, and take up his sectional cross and follow, passively, sectionalism and virtual dis-union and civil war, denying as they have done on inquiring paper issue that a tar-iff for revenue only and alone (without Granted sectional pro-slavery protection) is now, or ever has been, a Democratic measure, or can be in the future with this boasted tariff reform party a living issue. Is this true? or is it consistent for a departing Democrat (a candid-ate for baptism in this fountain of political corruption, in renouncing their articles of faith in the national Democratic creed), to acknowledge that fact when joining a professed tariff reform

party, but unadvisedly, unwittingly, and unprovidentially leaving the tariff-reform plank out of their hypocritical, double cloven-footed tare-i reform understanding? This professed tariff reform is one or the three chief heads of the seven-headed and ten-horned land, labor and capital monopoly, are the three chief horns of the bloody and fiery-red war dragon monster, sectionalism, whose manufactured home, financial, hub center, and reigning military locality is the seven free Northern, Maine, Massa-choos-its, down to the Jersey blue salt-water drinking, stately heads, over a ten-horned, military and political slavery-ruling Delaware, and Merry-land down to Miss-sis-sip-pi, or her lower Louisa-anna ten salt-water drinking, stately horns; or, in other words, the seven financial-bonded, tariff-protected, and military reigning heads, and ten land, labor and capital hooking horns, over the great national Western body and Southern sectional understanding of our former national, now sectional ruling, black-slavery and bloody and fiery-red hydra-headed war drag-on monster, sectionalism! Then if tariff reform is of so much national importance (and it is one of the national saving institutions), why be-head this professed tariff reform party with the strongest representative, old foggy, protective tariff man in the nation? Here we may see the point (though a fine sharp sewing-needle point it may be), or point out a *so-lu-shun* of the *Demo-passo-sectional-crat* riddle! It cannot be accounted for on any other active, passive or neuter platform than that in this *extreme age*, when domestic, moral and political extremes are meeting as they never met before; when this Northern, cloven-footed, first cause of sectionalism, disunion and civil war is reaching after, courting favor with and offering to embrace its Southern il-le-git-i-mate, cloven-footed, but antagonistic offspring, or the secondary effective results of sectionalism, disunion and civil war meeting, advocating the cause, and offering to embrace its il-legitimate

father or first destroying cause, (like causes produce like results), and that, too, without any mediatorial union savior between these destroying extremes, without sacrificing the only national, Democratic, union-saving, peace-making and liberty-redeeming mediator, or only legitimate means and national plan of political salvation. Also according to these reversing extremes of sectionalism (so-called equality before the law), when the strongest national union and strict constructive constitutional Democrats can meet more than half way, embrace and bow down to the strongest, consolidated, war-forcing opposition representative of the first old bully, tory, hooking, Whig party ; second, the stinking-est, mediatorial, government-destroying, old bully, tory, and slavery-hooking Abolitionists, and now the strongest, bully, tory, slavery and protective tariff, hooking representative of the sectional, passive, Democratic, departed trinity, baptized and buried bodily in the sectional fountain of political corruption, or just departed out from what he and his political free farming-out satellites call a band of brotherly, sectional thieves and general government robbers, granted that they have thus been banded and bonded and thus departed ; but honest Democrats have an old-fashioned way of judging men by the company they keep, or have kept, and at the final hour of departure betrayed. Birds of a feather generally and naturally flock together (national union Democrats have no bayonet pin-feathers), or more proverbially speaking, the partaker of guilt. Sin, or passive iniquity is considered as guilty as the thief, or the first cause or original transgressor ! They have since their departure out of this band of sectional thieves and government robbers been guilty of their same old tricks, in plying their old vocation, by attempting to hook, steal or appropriate to their own use the national union and constitutional principles of Democratic free trade, tariff—labor and civil service reform—amnesty, etc., or a full national Democratic suit of Uncle Sam's brief

clothes, or of hooked higher law livery, to serve the devil of sectionalism with, in this former earthly paradise, for another term of four years of political, passive condemnation. But if the majority of the people want this mixed state of extreme uncertainties, or of sectional reversing extremes, and these tri-bunal policies of chronic war, political pestilence and financial famine; if from the free consent of the governed, let the majority rule. That is Democratic doctrine, Eve-*een* when smuggled in (by disobedience of the general saving law), and choked to suffocation with the *tares*, *wares* and *cares* of sectionalism. But why depart into sectionalism now? We were all forced into that despotic trap, during the war, under bay-o-net rule; but now we freely have, have had, or should have now, our eyes open to see this sugar-coated passive bait in the foxy, military trap; and if we go in and get squeezed, sour lemon fashion, they only who go in and get doubly squeezed will be responsible for the doubly sour *lemon-aid*!

Then how stands the *dark* account as painted on *three* sides of the national canvas in our national pictures of the political leper? for we have, or have had, and will have again, a light, *bright shining* sun-light, heat, and life-saving side representing the Sun-day of human life; likewise the black, or dark-moving, night shading side, representing the dark valley shadow, and type of Adamic fallen death. Then we should look at, view and re-view all our pictures, more especially human phyo-ture-graphs representing life or death, and hold them up as nature's mirror, labelled right side up with care, "Glass, handle lightly, and keep dry!" But to-day we have a very dark side, and worse than that; our fool-length picture on the national canvas is wrong side up, or upside down; or in other words, standing on its head, and every promise made by sectionalism and passiveism is equally promising. I say every such promise thus made has been, is and will continue to be, reversed. Likewise every

single principle, policy and practice of our positive, legitimate, self-government creating political fathers, which they held sacred as the only means of political salvation, has been reversed, revolutionized and overturned. Then this government to-day is typically, photographically and figuratively (and a beautiful, bright, black, shining, figured, pictured and reversed photograph it is, too), is virtually standing on its head; and it is my mission, and it should be the mission of the whole national united Democratic party to put this formerly best government of earth on its feet again. But passiveism is but a general back-sett into the halfway sitting passive seat, or standing, as the butcher's block, on which to sacrifice innocent, passive Democratic sheep, which are ready to lick the hand just raised to shed their *blood*. Still this bloody, self-sacrificing, butcher's block-head stands on its passive but! Democracy means not passiveism, but action, united action; yea, sublime, God-like action! But this wise Sir Demi-semi-quaver oracle of Cin-cin-natty, declares that the Democratic party has no living principles, policies or legitimate issue. All its former rich inheritance of peace, union and prosperity; all its political effects of domestic, political and religious liberty, and all its grand national union and constitutional results of their economical, scientific, systematic, revenue tariff, called free trade, or a balance of foreign trade insurance policy, an equalizing, life, liberty and property protective system, and *their proposed* equalizing, distributing, greenback, gold and silver financial system, all this crowning glory of personal, party and national effects must be buried with departed war issues, or resurrected to reversing, living issues of Granted or *Gree-lied* sectional military power, of departing political corruption, and national political death!

"Great God, and shall we ever live at this poor, dying rate?" Is this as-assertion of dead issues, or damned living issues true? If so, then is principle, our former rule of

action, *dead!*—dead, dead, or three times dead. Then also is the Democratic party dead, for principle is its soul, for it has an immortal soul to save, as well as a head of judgment and an understanding of wisdom, and nothing is alive to-day but active, granted and passive sectionalism!

“But come, let us reason together,” saith the spirit for the third time! Do principles, positives, and their negatives of right or wrong, good or bad, love and hatred, ever die? Can principles as old as creation, and as pure as the Divine Creator, be cast aside with sectional or passive party rubbish and be called departed, dead and buried issues? As well might we say the general Divine law is a dead issue, and the Divine plan of spiritual salvation is a dead issue, and was buried with our Saviour, and that his third-day resurrection to the truth and the light of a higher life, which may providentially be the mission of the Democratic party if not a dead issue! Granted that rebellion, revolution and civil war legislates, but can they change principle? I answer, No!—no, indeed—a thousand times, no! If the Democratic principles, policies and practices were right before the war (slavery, for which they were not the cause, always excepted), then are they right to-day. I did not know before this granted age of extremes that even Democrats in good standing (not Adamic fallen understanding), had become converted to the virtuous military necessity of a General Granted sectional war power, believing that a government of force can reach back to the dawn of creation and freely nullify by magic military force a general law of God, man or devil! Not-with-stand-ing all this departure of my brethren of the Democratic faith, I shall still have the opinion of what is supposed to be a fossilized old foggy, alone in the world, perhaps, in my present opinion, but destined to future company in believing that principles never die, never change, and never depart, to become passively buried in political corruption, as dead issues. Men may, and do die, and depart and

become buried, with their moral, spiritual or politically dead issues; but the national union and constitutional Democratic party can never die, because it is founded on principle; whilst other parties may and do die and depart from their principles of right (if they ever had any), or change their name, and like men may be buried with their dead issues, in sectional or passive political corruption. But the national union Democratic party has an immortal soul as well as a body, and a name that can never die. Then why this out-generated, out-landish and out-spoken talk about dead issues all at once, if not as a pre-fix to a dead-head, passive, still-born party? Is free trade or a tariff for revenue a positive Democratic dead issue? (for this is a legitimate, positive government-creating party), or is the present pro-slavery, pro-protective tariff the only Granted and Greeley living issue? Is it a positive fact that the validity of contracts is a dead issue? or will these wise passive, sectional philosophers answer the question I have pro-pounded and answered in book form, viz.: Who are the practical repudiators of individual, corporate and national contracts in this political slavery-bonded State and Nation?

Is a national debt, as a national blessing, a live issue with liberal Republicans, and passive, departed Democratic Republicans? If so, or not, who is the Grant-or of that blessing? Surely not the Democratic party, for they protested against the Grant-or of that blessing—the illegitimate creator of that debt—as well as against the sectional repudiators of their own national contracts in their sectional extremes before the people! or granted relative equality before law. Is the proscriptive right of holding the *purse*, the *sword*, and the *liberties* of the nation in the same military, sectional or passive hand a living Democratic watch-word, or a dead issue in the Democratic camp? or are they hypocritically reaching for the living issue through passive sectionalism? Is the national consolidation and exaltation into sovereign

supremacy, the military power above the civil law, a *dead issue*? If not, who is responsible for the living issue? Surely, certainly not the national union Democratic party. Why, then, should our union savior yield up the holy ghost of a chance of resurrection (at the third eventful day of near coming political judgment), into the immortality of truth, justice, judgment and eternal life, and depart into the accursed held fire and brimstone of these war-forcing extremes of sectionalism and passiveism, which is the cause of all these antagonistic LIVING ISSUES? Why attempt to act the Grant-tied, bur-lesque sectional play of HAM-LET-LOOSE in our great national black Comedy of Errors, with the Ham-let-*Holy-Ghost* of the true white prince of Denmark left out of the play?

Is land, labor and capital monopoly a dead issue, buried with the protesting, but departed Democratic body, in their en-graved winding sheet of principle-dead issues? If so, why attempt to be-head, force or exalt the living sectional head, or the first passive cause, on a dead body? So I might enumerate in-definitely the positive Democratic principles, policies and living issues, now condemned to death and passive judgment by these sectional, departed, grave-yard brethren, into the Granted, negative, sectional extreme reversing live issues, with too much life, supported by the military power, which promises all things to all men, but performs nothing for the general good; but turning this Aaron-Granted, chastening rod of ruling, but plagueing, protected iron into the blasted fiery serpent, virtually eating up, and spiritually drinking up the subsistence of the people. Even so do they, these departing *sorcerers* and passive *May-jicians* succeed with their enchantments! Sectionalism has forced its unconstitutional measures on their own enslaved people, through the professed higher law, military power, without the sovereign, free consent of the governed. Even so will these departing sorcerers and passive, monthly

May-jicians succeed with their enchantments, plaguing the people, destroying the government, and spoiling the people for another four years Presidential season.

I believe the day or true hour has come when we should call men, things and parties by their domestic, churchly, or stately right names, and handle without gloves, as public property, responsible law-givers, preachers, or professional teachers of the people, especially those who violate their sacred trust, pledged for the general good, of a free, sovereign people; and more especially is this the mission of the great national union and constitutional Democratic party, to establish truth, stand by principle, and in-augurate this forth-coming (fourth of March coming, it should be), great general millenium peace reformation, which must commence with the family, the first primary or common school of self-government, where every man becomes a primary school law-maker, preacher and teacher. 2d. The church is the mediatorial son, soul-saving centrifugal center of our human law solar system, if not self-luminous, yet having the light of the Divine celestial countenance, with the terrestrial family and stately primary planets and their satellites, and cometary system revolving around this common center, whilst the State is the third in the trinity in all primary government founded on the rock of ages, where the secondary domestic, moral and civil branches are the political frame-work of the temple of liberty, and where domestic, political and religious liberty is the presiding goddess in that national union temple of freedom!

I have no entangling alliances with church, State or secret societies, and I anticipate many inquiring friends will honestly ask what uncommon interest have I in the general government, or in the bargain and sale of parties, churches and secret societies, when I have no particular orthodox creed to worship, no social or political secret society to defend, and no political ax to grind, except the sharp, pen-

handed, wood-man's ax, which shall be laid at the root, and every tree of life, liberty or knowledge which bringeth forth not good fruit, or nought but the sectional apple of discord, the A-damic for-bidden fruit, shall be hewn down and cast into the revolutionary spiritual camp fires of the millennial peace dispensation, thus preparing the way, making the crooked paths straight, and at the same time putting our domestic, churchly and stately house in order for the more than general granted coming millennial day of peace on earth and good will to men, the Sabbath day, or the seventh day of rest from our six days of labor, or the tired eventful resurrection day, or second advent day, and a complete trinitorial baptism in the name of the Father, Son and the Holy Ghost, or with fire sent down from heaven, the spiritual refiner's fire, which separates the dross from the pure gold.

But I am moralizing too much for a political work, led away to write as the spirit moves me; but if I write with the spirit and the understanding also, it will all be right and well with me and this book in the end! Then I shall answer honestly in the same spirit in which the question will be asked, "that I have not only an individual interest, but also a national and worldly interest in all the domestic, moral and civil governments of mankind. I consider good political government as the one thing needful, without which there can be no enjoyment of domestic, religious or political liberty; no equalizing protection of life, liberty and property, and no assurance of freedom of speech, of the press, or of conscience. Yet if my great book, (which has been shelved for a year or more for the want of financial backing, vertebra or stamina to put it on its feet), and which is entitled "A Revelation of the Trinitorial Equations of Nature, Creating, Governing and Regulating all Motion, Mind and Matter," I repeat again, if this book is to become the first primary campaign reformer, law-giver and peace-maker

of the nations, and this reformed, re-united and re-established national government is to become the model State's right, national right and free patent right republic for an exemplary, national republican, United States of Europe, next an United States of Asia, and finally a you-knight-tied States of Africa, and her cloven-footed isles of the ocean; and in my book, which advocates the cause of our national, constitutional, union savior, as the only moral plan of political salvation is to be condemned like our moral Savior, who was the human embodiment of the Divine plan of spiritual salvation, who came to his own and his own received him not, yet the time is coming, and even now draws nigh, when this book and its greater successor will be received not only by its own party, but by this nation, and by the whole world! And whether this sectional bargain and passive sale of the only national, constitutional and union party into the forcible, departed, treason, stratagem and spoils of sectionalism or not; yet they cannot destroy our good name, organization, or legislative body, the (soul) (sole) now sold, plan of political salvation; and although every other man depart into this political treason, or depart spiritually from this straight and narrow path of our Democratic fathers, or depart virtually from this domestic and moral plan of political salvation, yet will not I; for it is not only my mission and privilege, but also a duty I owe to the world to stand up for the rights of all men from the wrongful oppressions of their fellow-men; to aid and advocate truth, the whole truth, and nothing but the truth, in dispelling error, to stand by the principles, policies and practices of our fathers as the only safe and sure road leading to our former haven of national peace, union and prosperity, instead of sacrificing principle for sectional, war-departed expediency; but I must do this through the pen of peace, which is more mighty than the sword of war.

I am not an orator, a public speaker, or even a good ora-

tor, because of the remaining core of the A-damic apple of discord, which when excited rises up and chokes me down, reminding me of the general fall of man; also, lacking the firm, brassy cheek, and being troubled with absent-mindedness in forgetting little, but important names, words and sentences in reaching for great ideas, and trinitorial theories in the scientific joint work in building my universal temple of liberty, but Samson-like pulling down that magnificent temple and burying alike names, words, theories and myself also in the general ruins.

I have written six letters to a Cincinnati editor, and also two more to a New York editor, protesting against this general sacrifice of national union principles for sectional, extreme departing expediency, and departing into land, labor and capital, or railroad my-nopoly, resulting effectively (as like cause produces like effect) in political slavery. But all these earnest communications and solemn protests have been treated with silent contempt. I have also written four letters to a Cincinnati-like legal gentleman, notifying him as the chosen hero of my crowning work, as the next general peace candidate for Presidential honors, or the next successive heir apparent to the relative granted throne; and also one letter to another Cincinnati branch limb of law, two weeks before the May-just-stick, Pork-op-pole-is mass meat-ing of the Sin-sin-naty Con-vent-shun-all slaughter-house, protesting against this sectional bargain and passive sale of the Cincinnati and Baltimore political packing, preparatory for the fall pork-packing, fall delivery season; but the answers to these communications have been neither yea, yea, or nay, neigh, but like all the others treated with silent contempt. Then, under these deep-pressing circumstances, what should a poor mortal do, who is disinterestedly trying to write up the world, but condemned without a hearing before his own political judges in this near coming day of political judgment, when a whole nation will be weighed in

the worldly, sectional scales, and may be found wanting in justice, judgment, and a charitable understanding of these general laws, which are the only legitimate means, or only wise, domestic, moral and political plan of national salvation?

Hence the hasty necessity for this pro-scribed or pre-protested but protesting book, commenced June 3d, 1872, and notwithstanding the loss of time writing letters, tending my one *cent* notion trade, and three days of distracted sick head ache, yet it will be ready for the press gang under these pressing circumstances, if not condemned by a free or paid press, by the 20th of this same month, same year, and same age of political extremes. But I anticipate I will be tauntingly called a spiritual writing medium, as I profess to write as the spirit moves me, or with the spirit and understanding also; or like the second modern political Daniel, triumphantly called the Ind-i-ana Tall Syc-him-more of the Wabash. I may providentially be likewise jestingly called the third Daniel come to domestic, moral and political judgment, or a second Daniel typically cast into this worldly den of human lions, political, grave-digging hyenas, or ravenous wolves dressed in black sheep's clothing, howling and growling, and not satisfied with their heavy pound of sectional flesh, but determined to have the whole corrupt national carcass; or like roaring lions going about seeking what innocent, passive Democratic lamb they may devour, howling, Peace, peace, let us have peace, when there is no peace, neither indeed can there be whilst sectionalism rules; yet I care for none of these. Let the dogs of war bark their domestic, stately and church-canonized held-fire and brimstone *con-dem-nation*. Let the political lions growl and the black-sheepish wolves howl and destroy, yet are the present signs propitious of a near-coming extreme (in this age of extremes) domestic and political millennium, when the wild, unwashed, southern African *lie-on* and northern do-mess-

stick passive lamb can *lie* down together, and a little child of miss-fortune and mist-err-extreme adversity shall lead them. After the death and burial of dead issues, saith departing Democracy, (without fear of embracing Granted living issues,) then comes the political judgment. There is no hell on earth like the guilty man's conscience, burned and seared by the held-fires of his own wrath kindled against the just bar of judgment; and there is no devil on earth to stir up that held kindled, searing fire like the demoniac spirit of jealousy, envy and hypocrisy, the besetting sins of man, the forbidden fruit of this sectional apple of discord, forcibly plucked in disobedience to the general divine law, from the first A-damic deep-parture, causing the downfall of men, of parties and of nations to the present day. Thus, like legitimate or illegitimate causes produce like corresponding saving or departing effects, and also like redeeming or destroying final results. Then let this nation, these parties, and this people beware; the day of political judgment is at hand, when every man should be judged, not by their empty, gassy, sap-springing words, or beautiful but deceptive buds of promise, bursting into egotistical flowers of eloquence and ripening into the forbidden fruits of this sectional apple of discord, but judged by their works, their actions, or the deeds done in the body, the body physical, corporate and politic; for by their fruits only can we know them. What we sow we shall also reap. If we sow to the gassy windpipe, we must surely reap the whirlwind; if we sow to corruptible flesh, we must reap relative Granted corruption; if we sow to the spirit of our political fathers, we shall reap of that spirit a national garner of peace, union and prosperity which sectionalism can never give, and the crowned world can never take away, but add to, copy from and glory in throughout all future ages. Then the establishment of truth, principle and justice is my mission and present calling and election sure. I had much rather be

right on this broad, universal platform of divine, worldly, national and domestic peace : moral, fatherly, brotherly and spiritual love, and spiritual, domestic, moral and political virtue, than be the titled, military, crowned, Granted President of to-day ! I am humbly and diligently, but carefully, searching for the truth, the whole truth, and nothing but the truth, and finding it all along this prophetic, straight and narrow path of science, civilization and Christianity. Let God be true, although every man might become a liar. "Let the truth be told though the heavens may fall, and earth be shrouded with death's funeral pall." Perhaps mourning over dead issues as the departing or passive politician would decide. But they are determined to use this passive Democratic monkey as the sectional cat's-paw to pull out the Greeley roasted Chappe-quæ *chest-nut* out of the Granted held-fire of living, sectional, political issues—of civil war ; all else are prejudged dead issues ; principles are dead ; peace has departed, and even the sectional club to beat Grant (and "anything to beat Grant," is the cry,) is a dead-head issue over a living national body of Democracy with an equivocal, cloven-footed understanding of a tare-iff reform, or tare-iff not reform, double-planked platform. But how stand the problematic figures on the national political *black-board* ? The black figures have Granted not to go for Greeley to a man ! One million of white Democrats in the country—men who stand on principle, and stand also on their own ground as bread raisers, laborers, or men who work out their own salvation with fear, labor and trembling, and are the most interested in a good government, and know the importance of it and how to keep it when they can once get it back pure as it once was, and they want it no other way. These men will vote to stay at home, like myself, and let the election go by default, or to *de-darkey* rather than be partakers in this greatest national crime of bargain and sale of principles, or in other words, where

Greeley will draw off one Republican, walking in the broad Granted downward road to death, he will repel three honest Democrats, who are walking in this straight and narrow path laid out as a lamp to our path and a guide to our understanding by our fathers; whilst in the villages, towns and cities where the Democrats like the Republicans are governed by corrupt rings, or a wheel within a wheel, with a centrifugal, general con-tammy-nating hub, and with numerous radiating tangent *spouks*, and a cen-trip-i-tell corrupt, muddy, out-tire-ing fellow, who are always ready for a bargain and sale to the highest bidder, even to the sacrifice of principle for the sake of embracing the stratum, treason and spoils of Auntie Granted expediency. These are the men who are running this passive, sectional mash-in, who are reporting everything hanging high for Greeley, and who will pack our *Bald-tim-more* Convention; for Brown the Blue, and Greeley too, whether false or true, will be the watchword. But for all this, I say notwithstanding these choking tares and choking-er tare-iffs, let our customary national two-thirds majority rule, not the accursed-tom-ary one-third sectional minority, as now. Any other sectional man is just as distasteful as Greeley. I say let the decision at Baltimore be final, let that decision be what it may. We want no bolting, no Lincoln or Breckenridge secession, disunion and civil war. War spirit is dead and buried with departed principle, and destroyed by it. Hero worship is also dead, and the heathen trinity, the god of mammon, slavery and war is departing from this land as the chief ruler forever!

My first choice, if the Democracy think it right for the Democracy to nominate a straight-out ticket, (left with the multitude for council,) would be G. H. Pendleton, our most honest, true and pure young rising statesman of the age; taken from the pure heart of the nation too, and placed on the same platform where he should have been placed four

years ago, and if he had been so placed, he would have been elected, and through the wisdom expressed in that financial platform we might have succeeded in paying off at least one-third of the national debt, and consequently twelve years nearer to the resumption of specie payments on the only sound basis (by cleaning out the corrupt financial debt) than we are to-day. But we read of a class in the Book of books who have eyes but they see not, ears have they but they hear not, and hearts but they understand not. There are none so blind as those who will not see the wise plan of our national salvation ; none so deaf as those who will not hear to patient truth, principle and justice as our only means of political salvation ; and there are none, or should be none, so selfish as not to work for their own good and for the good of others when they have the means, instead of trying to prevent others working for the general good of all mankind. I say G. H. P. should have been nominated at N. Y., for the platform was made for the man, and the man was made for the times which are trying men's souls as well as their political bodies ; but instead of that we put on a bonded head from the eastern corrupt financial hub of the nation over a national union living body, with an equivocal, hypocritical, cloven-footed understanding. He was betrayed by this eastern head and by the western Hendricks understanding, but with the express understanding that his would be the turn next time, and the party have stultified themselves by ignoring that promise.

My second compromise choice would be Mr. Groesbeck, of Cincinnati, or third, Thurman, also of Ohio ; all three from the pure heart of the body of this nation. We want no candidate from the corrupt financial hub, or protective manufactured hub, or military war hub. They are all given over to their heathen idols, worshiping the god of mammon, of slavery, and of war. As to Hendricks, he has departed for Governor of Indiana ; he is joined to his Greeley idol ;

let him alone. I anticipate and will answer once for all he who says that by the above I am advocating the election of Grant, Greeley, or any other sectional man—he is a *liar*, and the truth is not in him. When sectionalism went in at one end, truth went out at the other; that when passiveism went into his mouth to steal away his brains, truth, justice and principle departed out of his cloven-footed understanding. He has himself forced an offensive dead-head on a living Democratic body, standing on a cloven-footed tare-iff and tare-iff no you don't understanding. But as to platforms, I will make mine brief, for I have overrun my space. It is G. H. P. on a one million greenback plank—of a revenue tariff, free trade, or balance of foreign trade insurance policy, and an equalizing life, liberty and property protective system, and an equalizing distributive greenback, gold and silver financial system. This the brief outline. Especially all important is this financial plank, which is the key that winds up, equalizes as a saving financial mediator, or winds down this government. Neither party platform has made any provision for this most important life, health and wealth blood regulator of national life. Who ever heard before of two great national contracting parties making no financial provision to meet that contract? We want to withdraw paper issue from national banks, make them banks of discount and deposit, and also the great depositing demand and supply regulators of the greenback currency of the nation. Pay off the national debt, then come down to a specie basis, which a forcing government has failed to force into life.

If we sow tares in the flowery month of May, may we not expect to reap a double crop of tares in July, and a trinitorial crop of high tare-iffs in November?

If we sow May-apple seed in the spring, may we not expect to reap a premature harvest of may-be-apples of the Bald-(win)-tim-more sorehead apples in July, and an abun-

dant crop of the fall apple of sectional, passive and departive discord in November, yielding the A-damic forbidden fruits of the downfall of men, of parties, of national honor?

But if we sow the pure grains of principle, truth and justice, and cultivate the July Baltimore soil with the old-fashioned farming implements of reason, judgment and understanding, then may not Uncle Sam's farm as of yore yield an abundant crop of peace, union and prosperity, as in times of yore before sectionalism, disunion and civil war destroyed the farmers' and planters' government, and cut out the equalizing, contented and prosperous or happy heart of this nation?

Answer the above questions according to the dictates of reason and wisdom, and a ticket-of-leave reading a title clear to the glory or dishonor of rising generations.
